

Students may use only calculators from the [approved list](#) below in examinations where the assessment specifications permit.

Prior to the entering the examination room, the candidate must clear any data by resetting the calculator to its default settings. This will be checked by staff. **This process will take extra time and students need to be early.** They must also allow an Examination Supervisor or teacher to check that the memory of any calculator in their possession is set to default settings prior to the start of any examination.

Failure to clear any data or to allow a check of the calculator will be treated as a breach of the Rules.

Any other electronic device, (a device with the capacity to store, communicate, or retrieve information) **WATCHES** now come in this category must be switched off and sealed in their emergency evacuation pack. Failure to do so will be treated as a breach of the Rules.
